Honorable William Casey
Director
Central Intelligence Agency
Langley, VA 23665

STAT

Dear Director Casey:

I write you because I have several Freedom of Information Act requests pending with your Agency, all of them delayed beyond legal deadlines and the Presidential orders for declassification review that affect them.

I would appreciate a full and written statement of the status of these requests. They bear on the Bay of Pigs case; I am delaying a book manuscript to be able to consult them (and the new tapes being released by the Kennedy Library).

My most serious needs are to review the Inspector General's report and the DDP reclama. Admiral Inman's letter to me several months ago predicted the IG report would be processed quickly, but I have not yet received it.

My current address has changed to the above.

Yours sincerely,
